

V-Zag X Deleon French Doors

Deleon's V-Zag door, inspired by her highly popular V-Zag tile line with TileBar, incorporates an alternating polished gold and black design on tempered glass in a chevron-like formation. The design features upside-down "V's"—for "Vanessa"—framed by bronze black in a swinging configuration with a matching 24-inch vertical square handle. It boasts a 1920s elegance, balancing streamline minimal design with a touch of glam.
